

Intellia Therapeutics to Present at Chardan's 5th Annual Genetic Medicines Conference

September 27, 2021

CAMBRIDGE, Mass., Sept. 27, 2021 (GLOBE NEWSWIRE) -- Intellia Therapeutics, Inc. (NASDAQ:NTLA), a leading clinical-stage genome editing company focused on developing curative therapeutics using CRISPR/Cas9 technology both *in vivo* and *ex vivo*, will present at Chardan's 5th Annual Genetic Medicines Conference on Monday, October 4, 2021 at 10:30 a.m. ET.

A live webcast of Intellia's presentation at this event will be accessible through the Events and Presentations page of the Investor Relations section of the company's website at www.intelliatx.com. To access the webcast, please log on to the Intellia website approximately 15 minutes prior to the start time to ensure adequate time for any software downloads that may be required. A replay of the webcast will be available on Intellia's website for approximately 14 days following the presentation.

About Intellia Therapeutics

Intellia Therapeutics, a leading clinical-stage genome editing company, is developing novel, potentially curative therapeutics using CRISPR/Cas9 technology. To fully realize the transformative potential of CRISPR/Cas9, Intellia is pursuing two primary approaches. The company's *in vivo* programs use intravenously administered CRISPR as the therapy, in which proprietary delivery technology enables highly precise editing of disease-causing genes directly within specific target tissues. Intellia's *ex vivo* programs use CRISPR to create the therapy by using engineered human cells to treat cancer and autoimmune diseases. Intellia's deep scientific, technical and clinical development experience, along with its robust intellectual property portfolio, have enabled the company to take a leadership role in harnessing the full potential of CRISPR/Cas9 to create new classes of genetic medicine.
